

2Blossom Foundation: Achievements 2023

Daily Arts and Crafts Classes

From Mondays to Thursdays, the 2Blossom Foundation has been dedicated to fostering creativity among the primary school learners of Lorraine NGK Primary School through our daily arts and crafts sessions. These sessions provide a consistent after-school activity for primary school children, with occasional participation from older and younger students. Given the limited access to art facilities and other extracurricular activities in the local rural area, these classes offer a vital creative outlet and skill-building opportunity for the children.

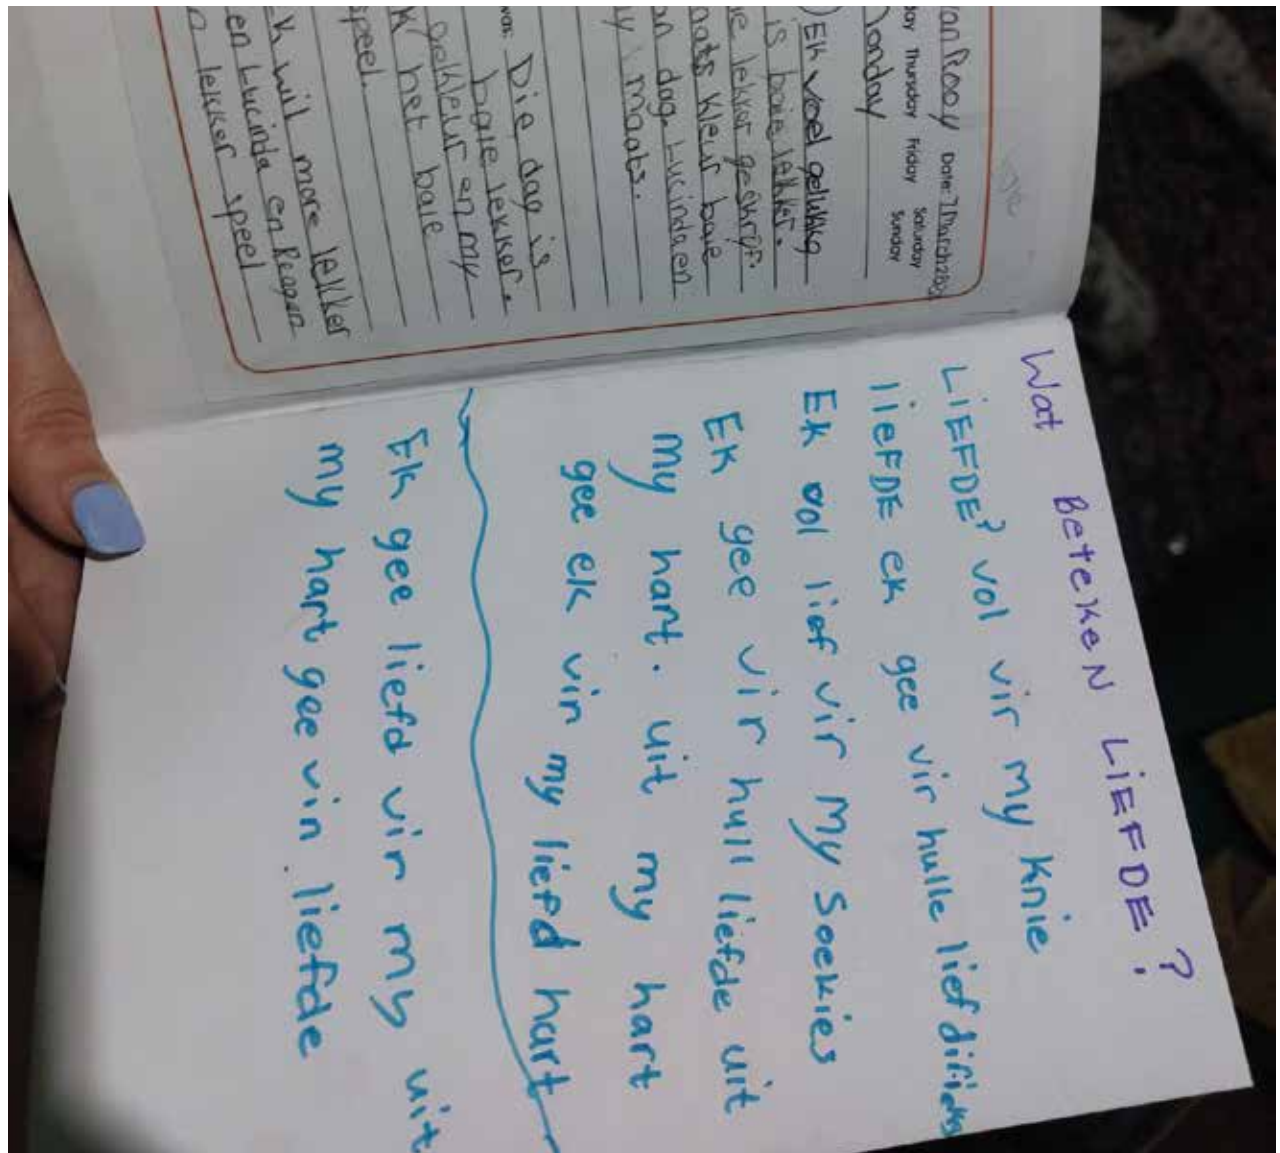

Achievements

Successfully conducted arts and crafts sessions four days a week.

Engaged with 60 regular participants throughout the year.

Created a safe and nurturing environment for artistic expression.

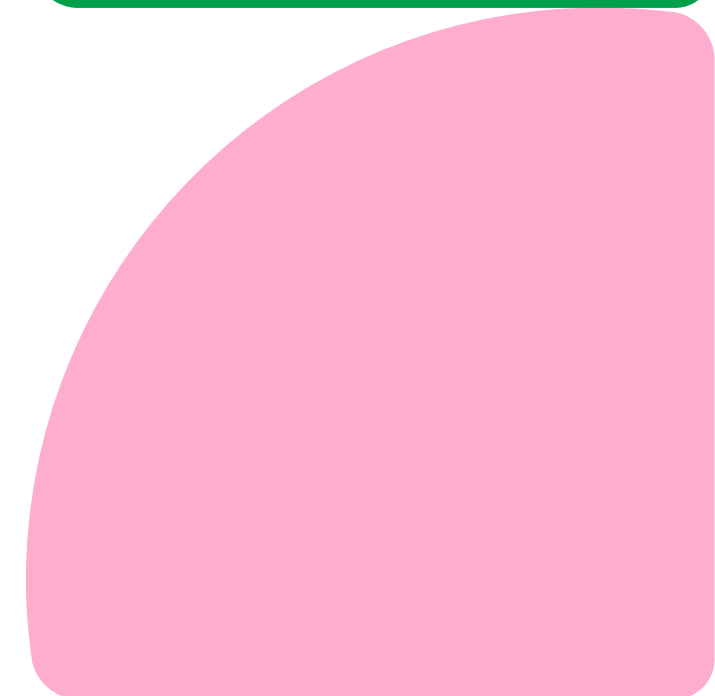

Student2Star Project

In collaboration with Du Toitskloof Wines and three local artists, the 2Blossom Foundation launched the Student2Star Project, an art mentorship program designed to nurture young artistic talent. Selected learners who demonstrated exceptional promise in the arts were mentored by professional artists, guiding them in creating their own artworks. The culmination of their hard work was an exhibition at Du Toitskloof Wines' tasting room, where their pieces were displayed alongside those of their mentors.

Achievements:

Mentored a select group of promising young artists.

Facilitated the creation of original artworks by students.

Successfully hosted a public exhibition, showcasing the students' talents.

Provided young artists with a beginner art kit which they could take home after the project.

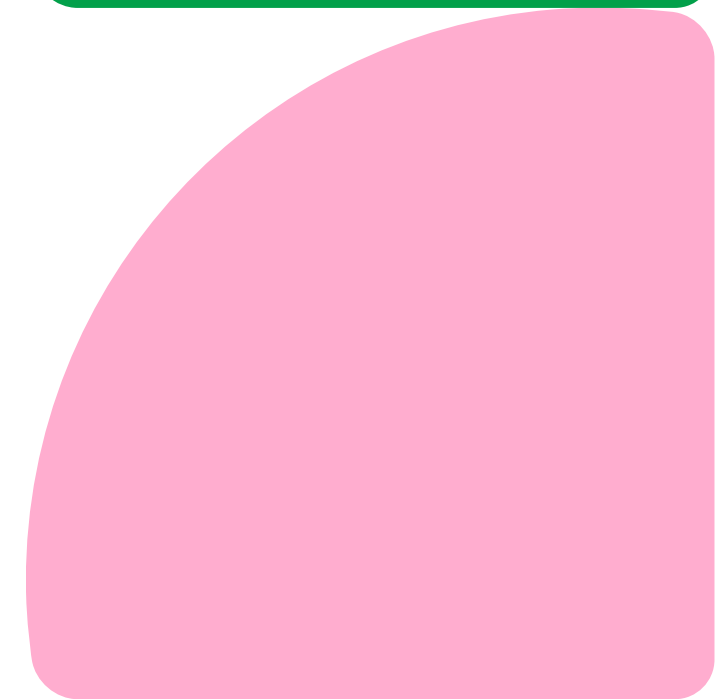

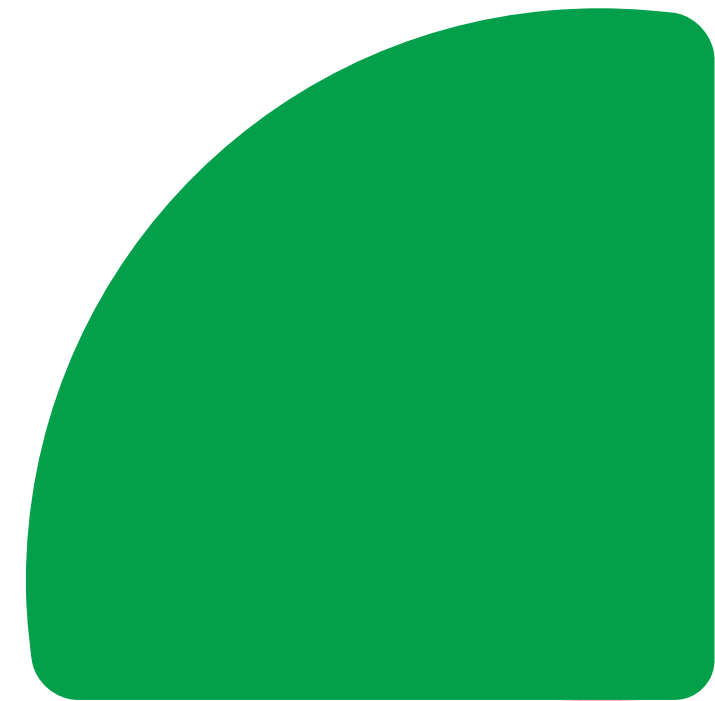

Holiday Packages

At the end of the year, the 2Blossom Foundation distributed holiday packages to each of our art learners. These packages included a small art kit, toiletries, and snacks. The recipients were especially thrilled and some even saved their art supplies for high school to ensure they had pens and pencils.

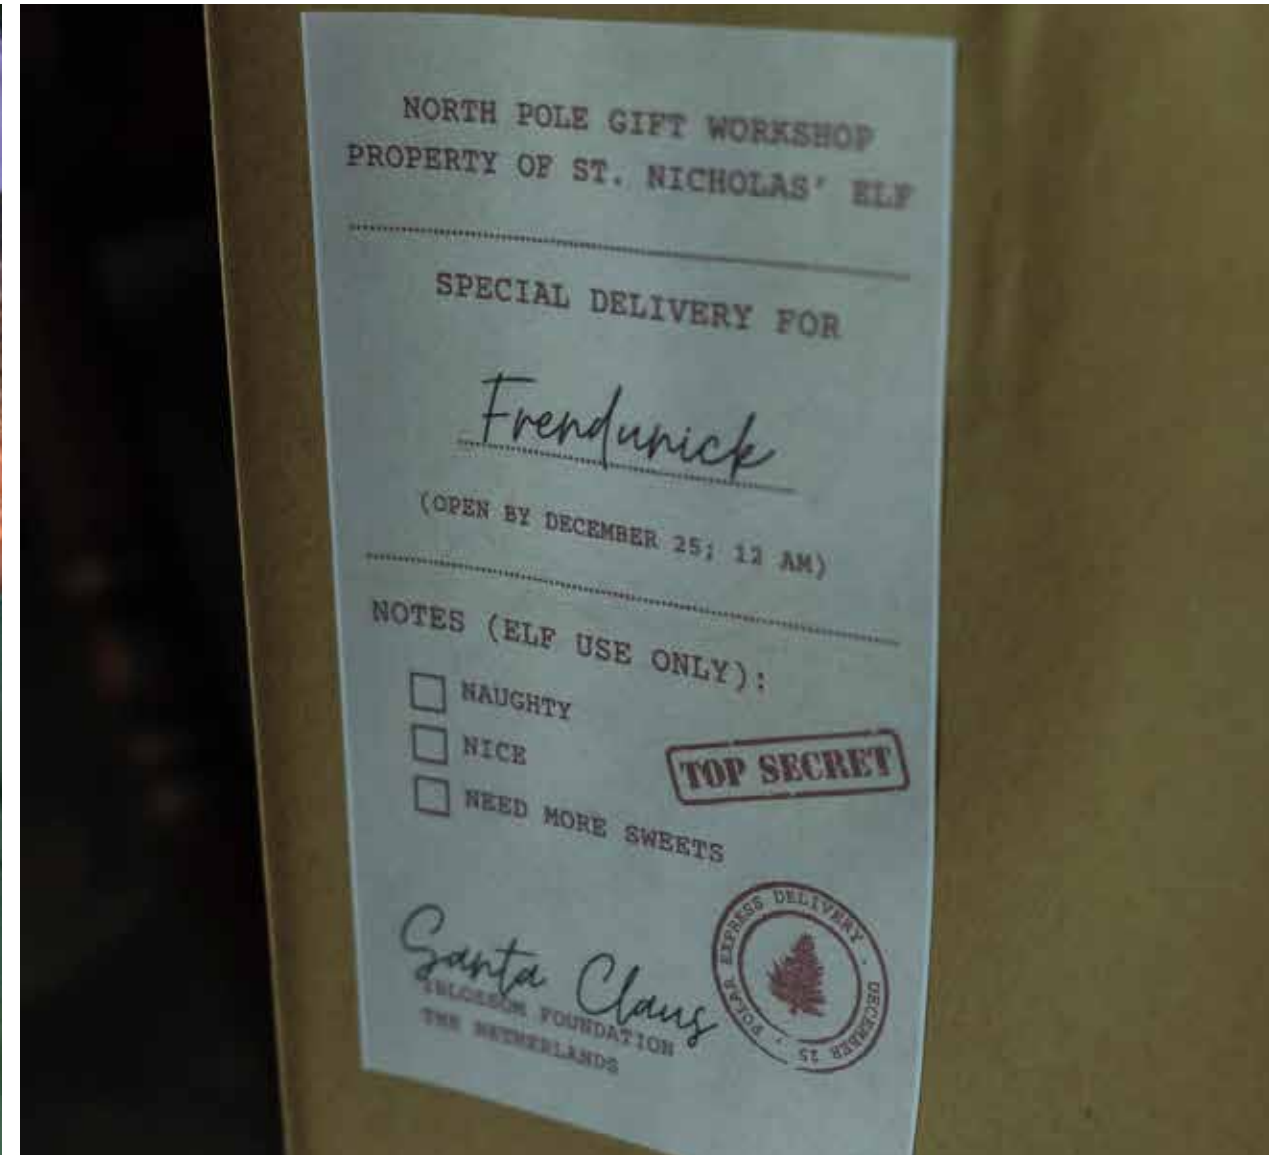

Achievements

Provided essential toiletry supplies to ensure learners have basic hygiene necessities.

Provided basic art items to foster continued artistic growth over the holidays.

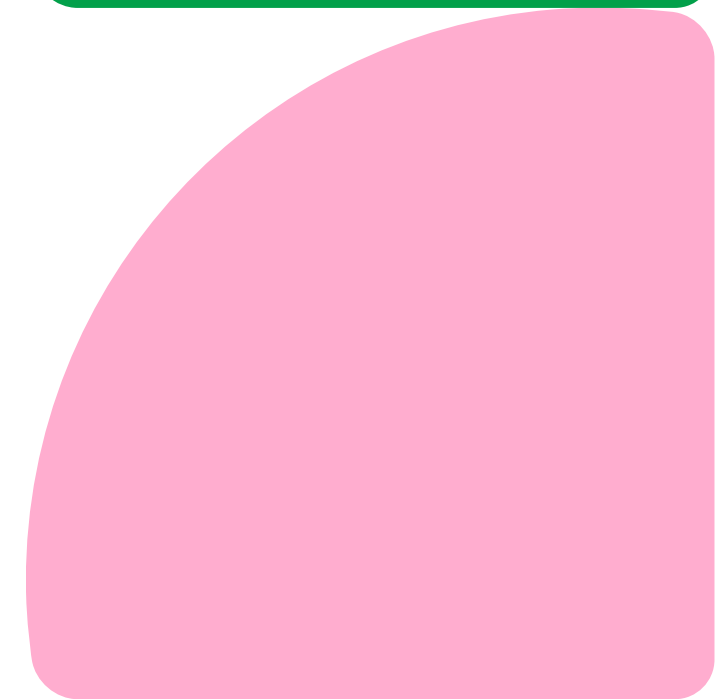

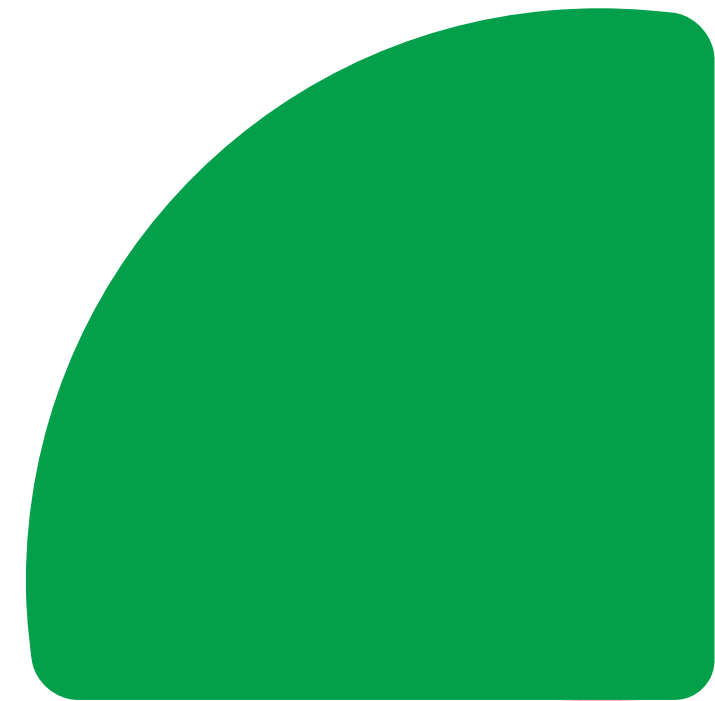

Brought joy and excitement to the students.

Holiday Workshops

During the school holidays, the 2Blossom Foundation hosts a variety of special workshops to keep the learners engaged, entertained, and safe. These workshops include more in-depth art classes, a clay workshop, and the dance workshop. By covering a broad array of topics, we ensure that the students have enriching activities to look forward to during their breaks from school.

Achievements

Hosted multiple holiday workshops covering diverse topics.

Kept students engaged and safe during school holidays.

Provided opportunities for deeper learning and skill development.

Through these initiatives, the 2Blossom Foundation has reached over 80 students annually, with around 50-60 regular attendees. We are proud of the positive impact we've had on the children's creative and personal development over the past year and look forward to continuing our mission of nurturing young talent in the years to come.
